PCTEA Union discount for Adult Education Training and Community Education.

PCTEA Union Members will be afforded a thirty percent (30 %) discount for Training and Community Education Programs based on the following terms:

PCTEA Union Members can only register at the Program location the first evening of the class (no online registration) and only if there are available seats. This process will be similar to a “stand by” situation at an airport.

The classes will be discounted at 30 %.

PCTEA Union Members must identify themselves to be considered for the above procedure.

New Classes start the week of January 2017
